**TMI ZURICH, SWITZERLAND:
A SOUND EXPERIENCE WITH HEMI-SYNC®**

by Peter Renner & Nicole Stocker

Recently, Peter Renner & Nicole Stocker from Zurich in Switzerland, had an interesting experience with Hemi-Sync® in a large hall, and are interested to find out if others have had a similar experience. Here is their story.

“Recently we tried Hemi- Sync with a group of 46 people in a large hall.

The hall had a concrete floor with a floating wooden floor on top. The sound came from large speakers on the ceiling.

Has anyone ever tried to use Hemi- Sync this way?

The sound waves are no longer effective on the ears, but on the lower abdomen, the concrete floor reflects the waves, and the floating wooden floor amplifies the vibrations.

A very wild whole-body experience! The feedback from the 46 participants who had previously received only a brief introduction to Hemi- Sync® is as follows:

one clear negative feedback (too esoteric) and more than a dozen people who were eager to buy Hemi-Sync® CDs.

Has anyone had a similar experience with large groups and the distribution of Hemi-Sync® over loudspeakers? If so, we would like to share with them”
